

Aluminium Doors, Windows & Roofing

Redefining the way homes connect to the outside

Bringing more light into your home improves physical and mental health. It makes you feel motivated, improves your productivity and helps you to sleep better.

Create Your Dream Home

Our vision is to deliver high-performance solutions that inspire you to reimagine your living space enhancing how you live, relax and enjoy your home.

We craft sleek, secure and energy efficient doors and windows that combine cutting-edge design with timeless looks to transform everyday spaces.

Our aluminium range brings lasting beauty, strength and light into every corner of your space. Designed to blur the boundaries between inside and out, this is where style meets substance—and where your dream home begins.

All our products are manufactured with precision, care, expertise, and attention to detail, ensuring exceptional quality, lasting performance, and a flawless finish you can see and feel.

Why choose aluminium? It's incredibly durable, resistant to rust and warping, and requires minimal maintenance, retaining its looks for years. Aluminium is endlessly recyclable, making it a sustainable option that supports a greener future without compromising on performance or aesthetics.

Bifold Doors

Exquisite aesthetics & superior performance

Bifold doors are designed to enhance the natural light flowing into your home while allowing you to fully appreciate your garden or patio.

They offer an increased sense of space and transform your interior living spaces.

Customisation

We understand that every home is unique and customisation is just one of the key advantages of working with us.

Choose from a range of single or dual colours, smooth or woodgrain foiled finishes, stylish hardware options and integral blinds.

Sheerline Prestige Bifold Doors

Bring the outside in, creating an improved sense of space

Prestige bifold doors effortlessly blur the lines between indoors and outdoors, expanding your living space and providing a seamless connection to your garden.

With their sleek and elegant aluminum frames, these bifold doors allow natural light to flood your interiors, even when closed. No matter the style or configuration you choose, Prestige bifold doors create bright, airy, and inviting spaces, offering panoramic views that transform interiors.

Fill your home with natural light

Their slim sightlines are designed to maximise natural light and allow uninterrupted views, while delivering reliable, functionality you can depend on.

Configurations

Prestige bifold doors are available in a variety of styles and configurations, spanning up to seven panes wide.

You can customise the layout to suit your space, choosing to split the doors left and right, or have them all slide to one side. A single 'traffic' door—perfect for everyday use, especially in less-than-ideal weather.

Doors can open to the left or right.

Outstanding security built into every bifold door

Designed with security in mind, Prestige bifold doors feature a 5-point locking system and double deadbolts to ensure your home is well-protected.

For added security on applicable styles, full-length interlocks are used, which bind the sashes tightly together in the event of an attempted break-in, providing robust protection against intruders.

As standard our doors are fitted with market-leading Ultion Locks - a 2 star lever/lever handle, and 1 star lock offering the ultimate in home security. An optional upgrade to a 3 star lock is available.

ULTION  | **STAYS
LOCKED**

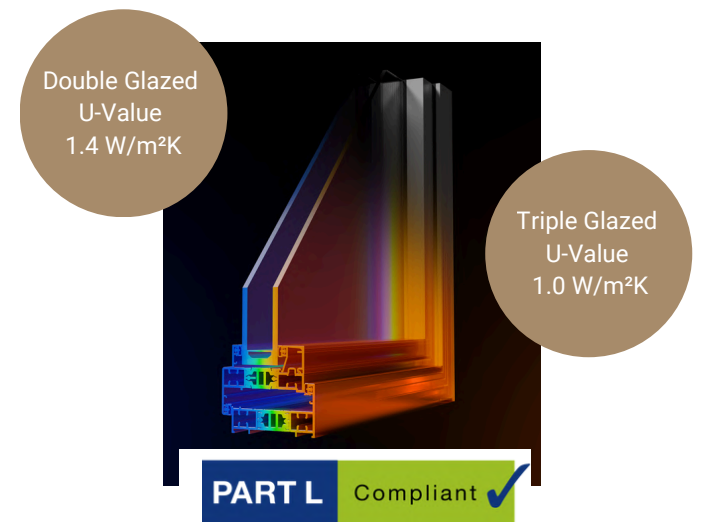

Featuring Thermlock® Unique Thermal Technology

The advanced Thermlock multi-chamber thermal design, discreetly integrated into every Prestige bifold door, provides exceptional insulation against the harshest UK weather.

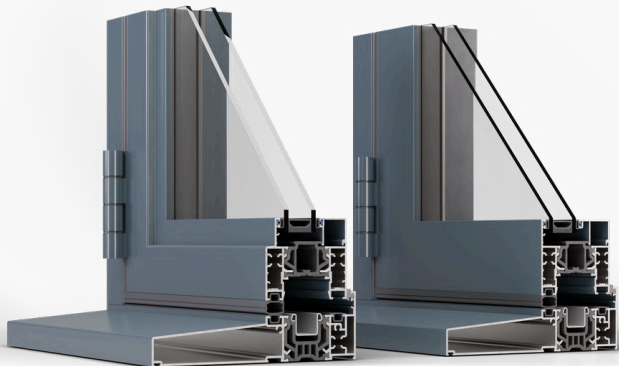

These closed-cell insulating chambers function as thermal breaks, working alongside high-performance glazing to deliver superior thermal efficiency—far exceeding traditional polyamide thermal breaks.

The cills incorporate this same cutting-edge technology, coupled with innovative built-in weather sealing to keep draughts and rain safely outside.

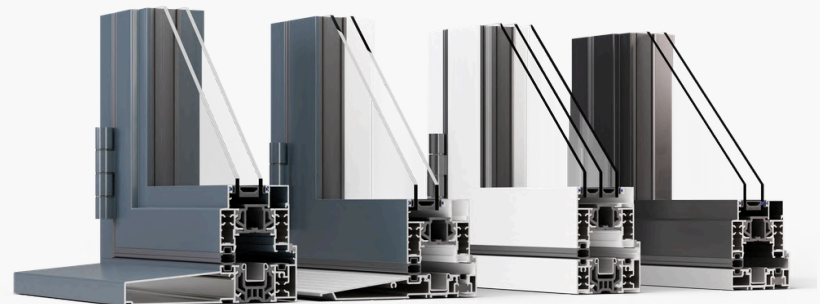

Frame Styles

These slim, perfectly balanced bifold doors are available in stepped and contemporary 'flat-faced' styles.

Four Threshold Options

Prestige bifold doors come with four threshold options all featuring fully weather-sealed rebates to keep the British weather safely outside. They also feature clever concealed drainage, eliminating the need for unsightly drainage cover caps.

Sliding Patio Doors

Embrace the outdoors with uninterrupted panoramic views

Sliding patio doors offer an affordable and stylish way to seamlessly connect your home or conservatory to your garden, providing uninterrupted views and inviting natural light into your living space.

Expertly crafted from high-quality aluminium with premium hardware and precision engineering, these doors glide open effortlessly for a smooth, seamless experience. Designed for durability, energy efficiency, and security, they are built to stand the test of time.

Sheerline Prestige Lift & Slide Patio Doors

Flawless aesthetics with exceptional thermal performance

The Prestige Lift and Slide Patio Doors create a statement centrepiece for any room, offering panoramic views. Not only do they exude the timeless feel of quality and style, they offer the durability of aluminium.

The perfect way to maximise breathtaking views, while providing easy access to your outside living space.

Effortless Operation

The doors glide smoothly, thanks to their specially engineered stainless-steel tracks and high performance running gear.

With the flexibility to select two, three or four panes, they are a flexible option for properties of all types.

The doors incorporate a patented sealing system, ensuring weathertight protection against the harshest UK weather conditions.

Our Prestige Lift and Slide Patio Doors are available in widths up to 6.5m by 2.5m high.

Outstanding Security as Standard

The Prestige Lift and Slide Patio Doors come PAS24 accredited as standard, delivering added peace of mind and robust protection for your home.

Each door is equipped with a high-security Ultion lock, while advanced interlocks are designed to securely bind the door sashes together under force—keeping intruders firmly out. For a sleek, seamless look, the retracting hook-locks sit flush within the frame when not in use, combining innovation with elegance.

Sheerline Classic Heritage Doors

With signature stepped looks & a period inspired lockbox

The ultra-stylish Classic Heritage Doors feature a unique inspired lockbox design and are available as either a single or French door. Versatile in function, they can be installed as an exterior or interior door, seamlessly complementing both traditional and contemporary spaces.

Drawing inspiration from early 20th-century steel doors, this elegant design has become an increasingly popular choice. Its slim sightlines maximise natural light, creating a bright and airy atmosphere while enhancing the sense of space.

Transform Your Space

Whether you're looking for the perfect door to bring more light into a kitchen/diner extension or need to find a sympathetic replacement door for a period refurbishment project, the Classic Heritage Door offers the style you are after.

Configurations

Available in single and French doors, with 2 or 4 bars

Featuring Thermlock® Technology

Thermlock offers almost double the insulation when compared to polyamide. Making Classic Heritage Doors inherently more efficient than systems that use polyamide thermal breaks.

U-Value as
low as
1.4 W/m²K

Optional Secured by Design Upgrade

As the official police-backed security initiative, homeowners have additional peace of mind when they choose this upgrade. This accreditation means the Classic Heritage Door has passed the SBD's stringent test criteria, which is based on reducing crime through good design.

Slim Sightlines

Discrete yet strong aluminium frames give you sightlines as slim as 60.5mm. Maximising the sunlight these aluminium doors let light into interiors, adding to the feeling of space and tranquility in your home.

Sheerline Prestige French Doors

Slimline frames, secure & thermally efficient

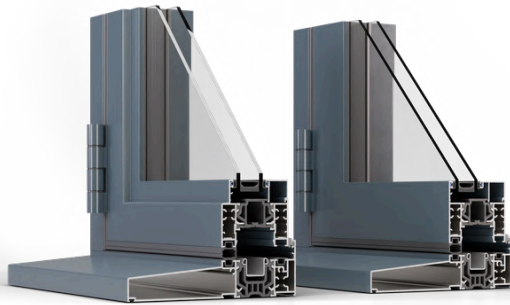

Our slimline Prestige French Doors allow you to seamlessly bring the outdoors in, whilst bathing your home in natural light. Available in either traditional stepped or contemporary styles, with optional sidelights and in a range of colours, dual colour options, smooth or woodgrain foiled finishes.

As well as their stunning looks they offer exceptional thermal performance, using an innovative Thermlock® multi-chamber design that is hidden away in each door. Security hasn't been forgotten either, with a patented design that creates ultra-strong frames and multi-point locking.

Threshold Options

Three high performance, low level threshold options all feature fully weather-sealed rebates that keep the worst of the British weather outside. Door frames easily fix to these thresholds using a universal moulding that's hidden from view externally. A cover strip continues the high-end aesthetics, hiding the fixings.

Contemporary or Stepped Frame Styles

Featuring Thermlock® Technology

Thermlock offers almost double the insulation when compared to polyamide. Making Classic Heritage Doors inherently more efficient than systems that use polyamide thermal breaks.

Sheerline Prestige Doors

Glazed aluminium doors to maximise light

With their slim, elegant frames Sheerline's glazed aluminium doors allow light to flood into your home, bringing an improved sense of space to any interior. These innovative British doors have been designed with style and outstanding thermal performance in mind. They utilise Thermlock multi-chamber technology and are produced with recycled Welsh aluminium, reflecting Sheerline's commitment to sustainability.

The doors are available with side and top lights, in stepped or contemporary sash styles and with a choice of three threshold types. Doors can be tailored to suit individual preferences and property styles with a range of RAL and dual colours or option for a woodgrain foil finish. A midrail can accommodate a letter box.

Contemporary or Stepped Frame Styles

Threshold Options

Three high performance, low level threshold options all feature fully weather-sealed rebates that keep the worst of the British weather outside. Door frames easily fix to these thresholds using a universal moulding that's hidden from view externally. A cover strip continues the high-end aesthetics, hiding the fixings.

Featuring Thermlock® Technology

Thermlock offers almost double the insulation compared to traditional polyamide thermal breaks, delivering exceptional energy efficiency. Keeping your home warmer in winter, cooler in summer, and helping to reduce your energy bills.

Sheerline Classic Windows

Ultra slim, high performance windows

The ultra slim 59mm sightlines of the innovative Classic window system maximises the light flooding homes, creating a refined architectural look. The patented corner construction method resolves issues with misaligned corners.

Our Classic windows are available in casement, French, tilt and turn and fixed styles, with sightlines as slim as 36.5mm for picture windows, and 59mm for opening windows. Classic lets light flood in, opening up interiors helping to create that important sense of space and tranquility.

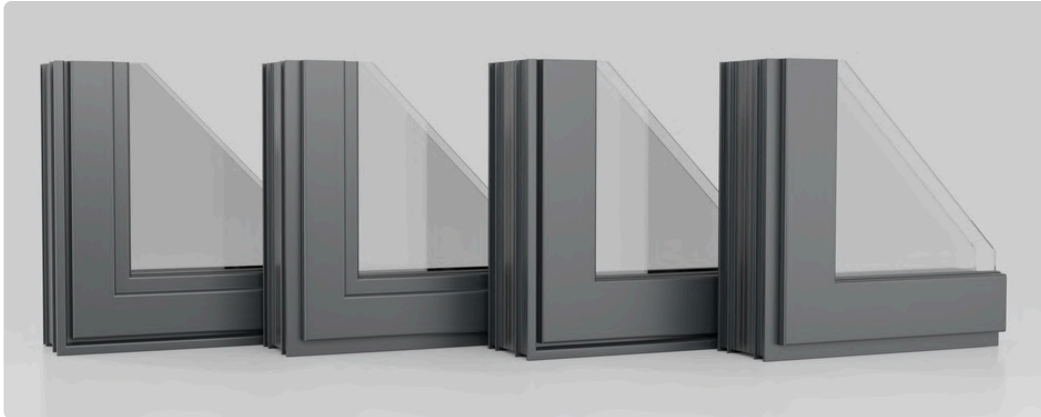

The Classic range can also be used to create traditional 'historically inspired' windows and doors. With specifically designed decorative bars for a distinctive period aesthetic.

The innovative Thermlock® multi-chamber design helps to keep properties well insulated against the worst of the UK weather.

Frame Styles

With a choice of traditional or contemporary styling to suit all property types.

Inbuilt Security

All Sheerline windows carry PAS24:2016 enhanced security accreditation, so if you are looking for stylish aluminium windows with extra peace of mind as standard – then we have you covered.

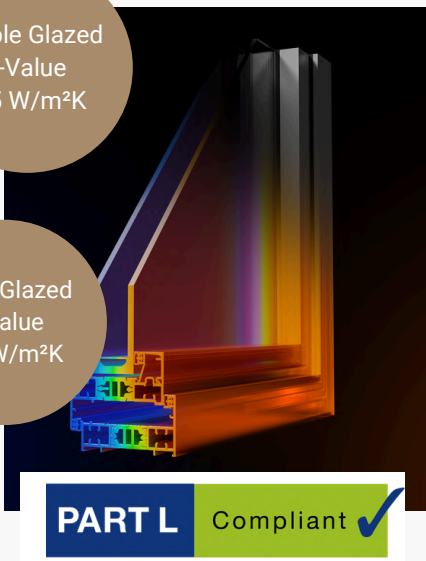

For added peace of mind, choose our laminate glass upgrade – for Secured by Design accreditation – the official UK Police initiative ‘designing out crime’ through physical security.

These closed-cell insulating chambers function as thermal breaks, working alongside high-performance glazing to deliver superior thermal efficiency—far exceeding traditional polyamide thermal breaks.

Sheerline Prestige Windows

Stylish, high performance windows with refined looks

Choosing the right aluminium windows for your home is an important decision. An investment that makes a real difference to not only the look of a property but to how warm and secure it feels too.

Prestige windows are thermally efficient and versatile, available in a wide range of window styles, and have been designed to be sympathetic to the modern trend for light, airy interiors. Using slim sashes allows more light to flood into the home, helping create that important sense of space and tranquility.

The high security, multi-point locking helps to keep homes safe and secure from intruders.

Security

Keeping your home safe and secure

Safety and reliability are a key requirement for your doors and windows. Which is why as standard we offer quality handles and locks that are carefully selected to ensure smooth operation, lasting durability, and maximum protection to offer peace of mind without compromising on style.

1 Star Plus Ulton Lock

The Ulton 1 Star Plus lock is secure against picking, bumping, and drilling. The highly durable, thicker dimple key operates smoothly and is resistant to snapping and bending. When paired with an Ulton 2 Star handle, it offers a £5,000 security guarantee against break-ins.

Optional upgrade to 3 cylinder

3 Star Ulton Lock

Inside the Ulton 3 Star door lock is an additional hidden lock, another layer of protection against intruders.

Encased in a core made with molybdenum, LockDown Mode™ is triggered when Ulton detects a snapping attack.

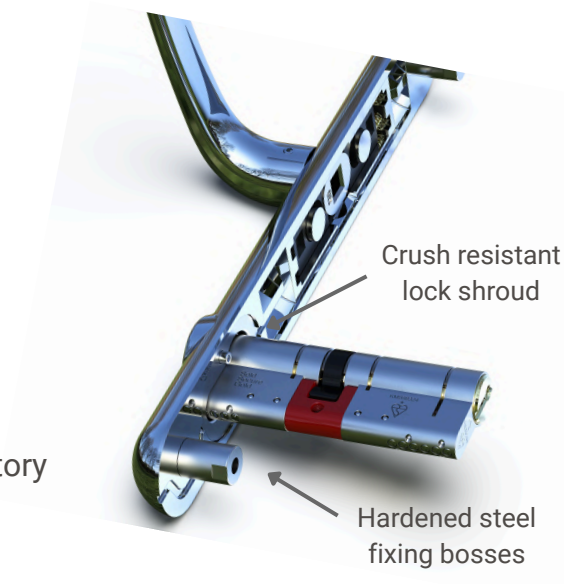

Accessorise With The Perfect Finishing Touch

Lever/lever handles

Our handles combine style, durability and security to perfection, giving you peace of mind.

Designed to enhance the appeal of your doors and windows, they come in an attractive range of colours.

But we know that style and looks are only part of the story - security is equally as important. Which is why as standard, we install 2sta Ultion handles.

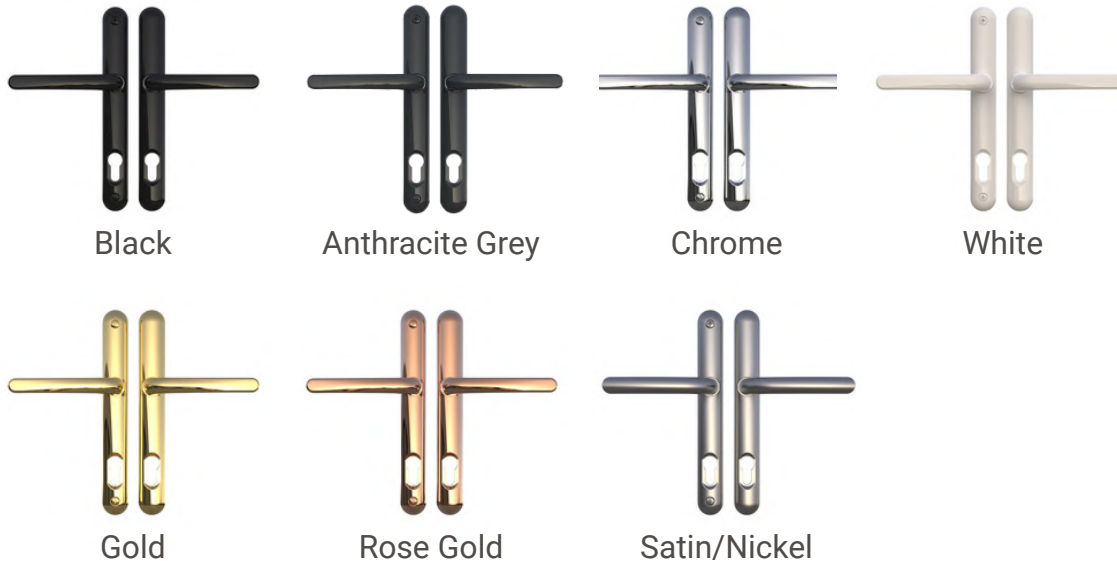

Anti-break-in handles

The Ultion 2 Star handle won't be crushed by mole grips and the fixings thread through hardened steel bosses to stop twisting.

Ultion doesn't sacrifice security for appearance or appearance for security.

The curved handle design and molybdenum shield give incredible security from drilling and lock snapping. Burglar's grips slide off if they try to rip the handle from the door.

Shoot bolt handles

Designed for intermediate panels on bifold doors, the handle tilts outward for easy operation and flat when not operating. Constructed from zinc die cast and a steel spindle.

Available in matt black, matt grey, white gloss, polished chrome and brushed satin.

Cortizo Sliding Patio Door Handles

P Handle

Offering a curved, edgeless design, that deters intruders, the Sweet P handle delivers a modern twist on the traditional patio door handle.

The handle carries multiple enhanced coatings ensuring it always looks great, even after over 8000 hours in a salt spray chamber. That's an incredible 30 times more time than required for the EN 1906 corrosion standard.

Bar Handles

Our bar handles are available brushed steel or black in a variety of lengths, they create a stunning entrance door with contemporary styling. Manufactured from authentic grade 316 stainless steel for ultimate corrosion resistance for the external handle.

Meticulously designed from high quality steel, with precision corners and joints for a lasting beautiful finish. Matching escutcheons, letterplates and door knobs are also available.

Integral Blinds

Controlling light and shade

Our integral blinds offer a sleek and modern alternative to traditional curtains, external blinds, or other window treatments.

They are a practical solution for sliding patio doors, bifold doors, French doors and glazed doors or windows as they don't interfere with the opening mechanism and sit neatly inside the cavity of the double or triple glazed unit.

They help regulate room temperature, provide privacy, and protect furniture from fading. Offering exceptional protection from the sun's heat and glare, these blinds require no cleaning, staying dust and dirt-free for life.

Manual or Magnetic Blinds

The operating mechanisms for the integral blinds are unobtrusive and designed for long term performance and ease of use.

Magnetic blinds are operated by a magnetic slider on the edge of the glass allowing the integral blind to be raised, lowered or tilted with ease and completely cord free.

Manual integral blinds can be operated with a rotational knob, wand or cord.

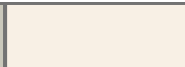

Colour Options

The blinds are available in 14 colours to suit every type of property. From pastel tones to contemporary colours to match your style.

The blinds work superbly well with coloured window and door frames.

For windows and doors that are anthracite grey on one side and white on the other, our dual colour option is ideal.

Sheerline S1 Roof Lantern

The UK's most secure, sustainable & stylish roof lantern

The Sheerline S1 Roof Lantern incorporates innovative features to create a warmer, slimmer and secure roof lantern that allows in the maximum amount of light and that offers amazing day and night time views.

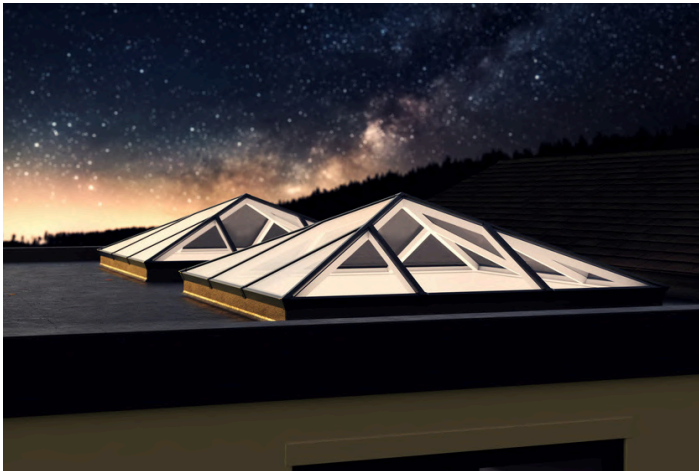

The S1 combines slimmer sightlines, with exceptional thermal efficiency and is the UK's most secure roof lantern.

Understated refinement, contemporary looks and exacting standards

The S1 features ultra slim sightlines and low line aesthetics so rafter and hip top caps sit close to the glazing level on the exterior, creating a sleek modern look.

S1 Lanterns also feature an integral LED light channel around the perimeter of the roof lantern giving you an easy way to add mood lighting and create that finishing touch for your interior.

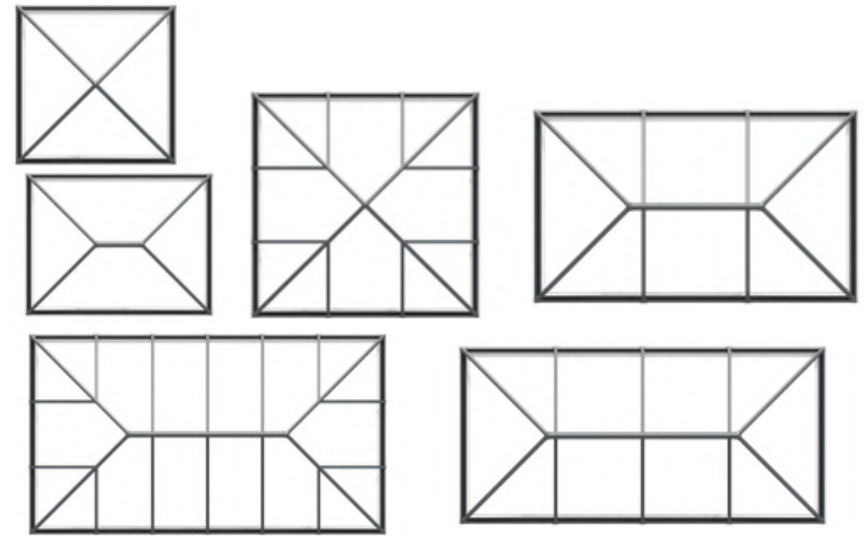

Wide range of styles and sizes to suit every project

Available in a choice of 13 styles, from square pyramid, to grand rectangular options suitable for larger 'orangery' style installations.

Maximum size up to 3.2m wide by an impressive 6m long, with a 25° pitch and all weather rated for the whole of the UK.

A 3 way option allows for larger spans to be catered for without the need for jack rafters.

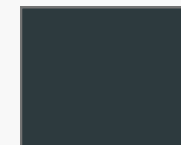

Colour range

S1 Lanterns are available in three standard powder coated colours, with the option to choose a different colour for the interior. Other bespoke colours are available.

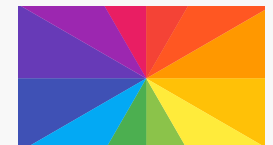

PURE WHITE
9010 MATT

ANTHRACITE
GREY 7016

JET BLACK
9005 MATT

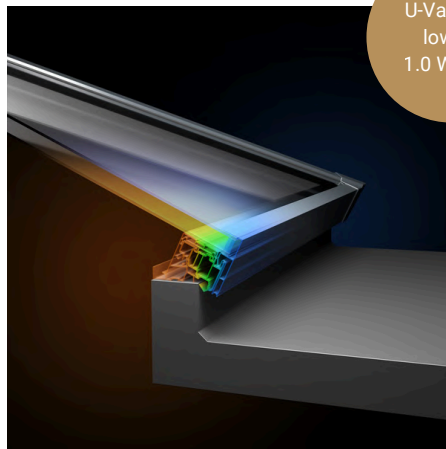

BESPOKE

Keeping heating bills lowers with Thermlock® technology

The S1 lantern combines sleek aluminium design with outstanding thermal efficiency, thanks to the Thermlock® multi-chamber design.

Engineered to withstand even the harshest UK weather, it keeps your home warm and well-insulated.

Combined with high-performance 28mm glazing, the S1 delivers superior thermal performance—far exceeding that of traditional polyamide systems using 24mm glazing. A unique co-extruded perimeter seal further enhances protection by keeping out draughts and rain. 28mm glazing also allows acoustic dampening glass to be fitted if required.

U-Value as
low as
1.0 W/m²K

SheerVent - reimaged, intelligent ventilation

SheerVent with its sleek minimalist design sits perfectly flush with the S1's discreet rafter bars and with powered actuators that are intelligently automated, SheerVent offers reliable ventilation without the risk of leaks.

Fully thermally broken and using the same high-performance 28mm glazing, it offers the perfect option to ventilate a room and prevent excessive heat build up.

Choosing an optional rain sensor can automate the closing of your roof vent for added peace of mind.

Security - the UK's most secure roof lantern

The S1 features

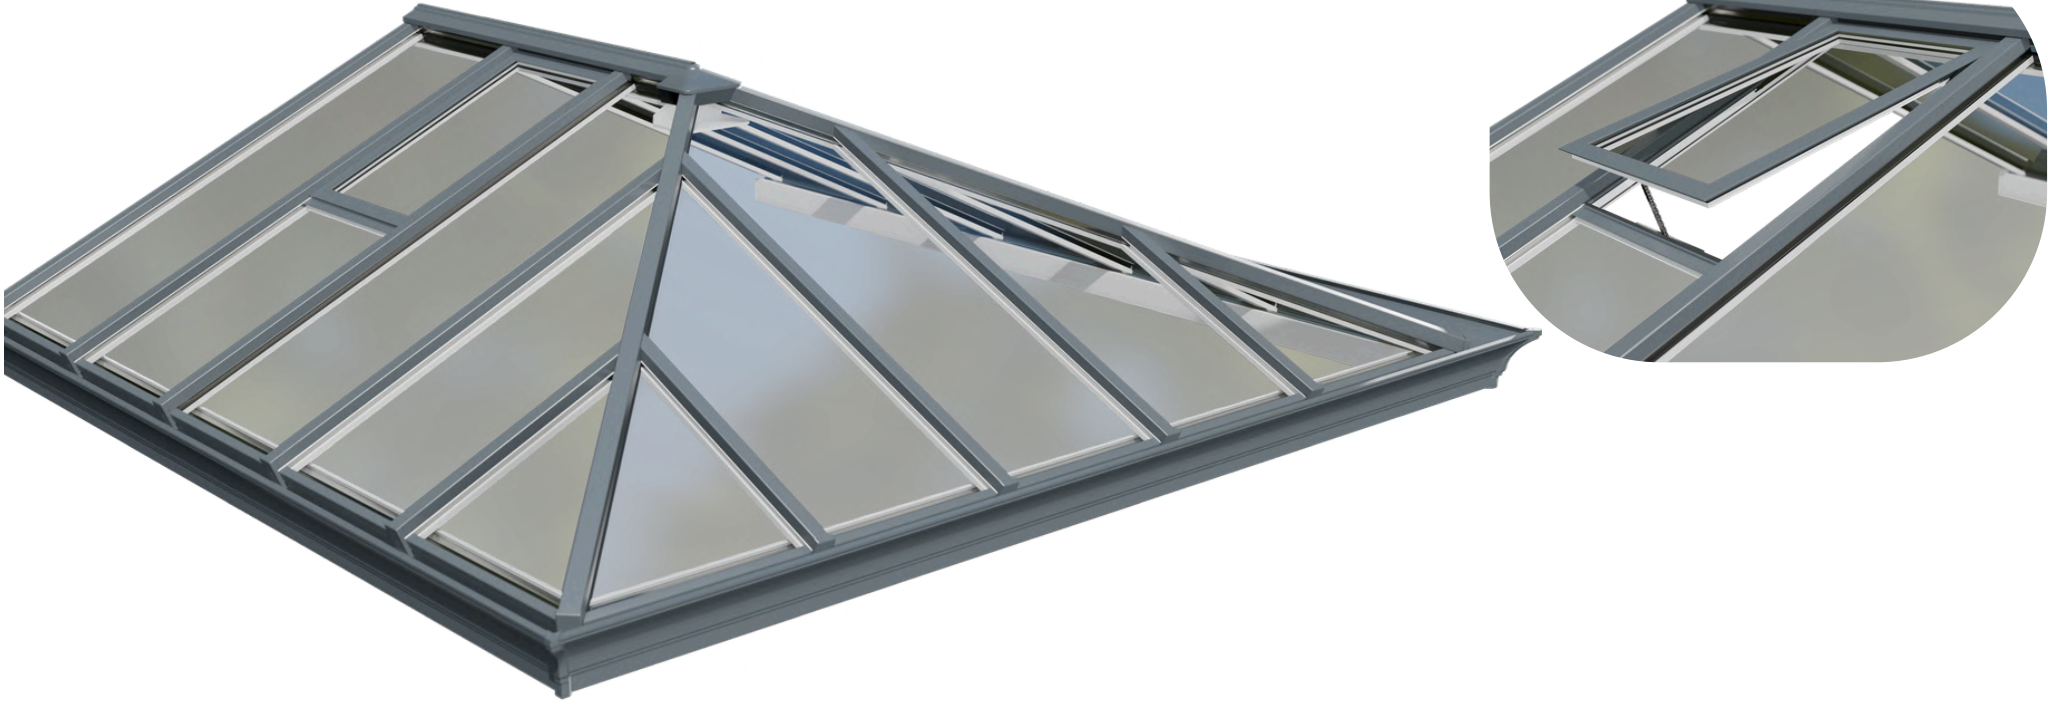

- Anti-tamper screws
- Enclosed anti-tamper glazing
- Security tape
- Patent pending glass lock
- High security ridge end

The S1 is already one of the most secure roof lanterns in the UK and now comes with an optional Secured by Design (SBD) upgrade. SBD is a police-backed initiative that identifies products that offer increased levels of security. This upgrade adds an extra layer of defence, providing extra peace of mind that your S1 aluminium roof lantern is secure enough to withstand opportunist criminals.

This optional security upgrade is invisible on finished roofs and doesn't compromise the stylish design or thermal performance that Sheerline products are known for.

Sheerline S2 Conservatory Roof

The S2 Conservatory Roof with its modern design has been designed to provide a 'best in class' glazed roof solution for conservatories, glazed sunrooms, orangeries, extensions and larger spaces. Its squared aesthetics offer an up-to-date appearance, plus Georgian, Victorian and Lean-to styles can be combined with valleys and box gutters to form a variety of designs.

The S2 is an ideal solution for creating Victorian inspired garden rooms with authentic period styling, adding a sense of grandeur but with modern performance and low maintenance.

Integrated eaves beam bolsters provide enhanced support for wider openings, making them ideal for spaces featuring bifold or sliding doors.

Colours

As standard the S2 is available in white, rosewood and a grey grained foil, other bespoke colours are also available.

Gutter Shroud

The S2 gutter shroud has been designed to provide a premium 'orangery' style gutter line with a stylish superior finish. The gutter shroud can be coated in any RAL colour to match the frame.

Internal Pelmet

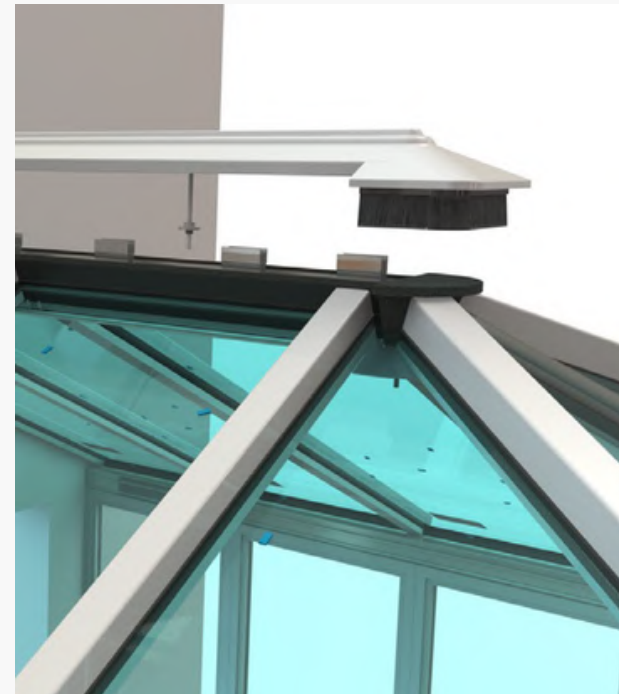

The internal pelmet creates an orangery style feel with premium looks and is the perfect way to add perimeter light to a conservatory.

Ridge & Wall Plates

The sleek yet strong S2 ridge system captures all the design principles of the new S2 roof.

A low profile ridge capping ensures the top line of the ridge is clean and modern for the contemporary design, but this can be upgraded to a more traditional feel with a selection of cresting's and finials.
